What's a Chemical Health Assessment? A Chemical Health Assessment (sometimes called a Chemical Dependency Evaluation, Rule 25, or Chemical Use Assessment) is a one-on-one meeting with a health care worker where an interview takes place to determine if an individual has a substance use disorder (also known as Chemical Dependency, Alcoholism, Drug Addiction, or Substance Abuse).

Chemical Health Assessment in MN

Suanne H. Crowhurst Lennard. Parque Oriental, a linear park currently in construction, is becoming a major contribution to health equity. Stretching 2.5 miles along a steep valley whose stream runs into the Douro River it borders some of the poorest neighborhoods in Porto, Portugal, and connects the neighborhoods with the business district along the river.
