How to solve Algebra Word Problems? (solutions, examples ...

Border problems generally require that you work with quadratic equations. Here is an example of this type of problem:

Word Problems: Border Problems - AlgebraLAB

The roots of algebra can be traced to the ancient Babylonians, who developed an advanced arithmetical system with which they were able to do calculations in an algorithmic fashion. The Babylonians developed formulas to calculate solutions for problems typically solved today by using linear equations, quadratic equations, and indeterminate linear equations.
