(back to contents) Introduction. News stories related to environmental noise problems abound. Some stories are dramatic, most less so, but huge effort and great sums of money are often invested in conflicts involving environmental noise.

## **NPC Resources: Environmental Noise Booklet from Bruer & Kjaer**

Wave power is the capture of energy of wind waves to do useful work – for example, electricity generation, water desalination, or pumping water. A machine that exploits wave power is a wave energy converter (WEC).. Wave power is distinct from tidal power, which captures the energy of the current caused by the gravitational pull of the Sun and Moon. Waves and tides are also distinct from ocean ...

The tables contained on this page list approved refrigerant numbers from ANSI/ASHRAE 34-2016, Designation and Safety Classification of Refrigerants, the latest edition of Standard 34, which describes a shorthand way of naming refrigerants and assigns safety classifications based on toxicity and flammability data. Further information can be found in the latest version of Standard 34, available ...

In fluid dynamics, the Darcy-Weisbach equation is an empirical equation, which relates the head loss, or pressure loss, due to friction along a given length of pipe to the average velocity of the fluid flow for an incompressible fluid. The equation is named after Henry Darcy and Julius Weisbach.. The Darcy-Weisbach equation contains a dimensionless friction factor, known as the Darcy ...
