### **James Duncan Diet**

This is a diet I was handed and told that it was designed to help people crash lose a stone for operations. I tried it and lost 14 lbs, so I'll pass it along since I can't find it anywhere else on the net.

### **James Duncan: How I lost a stone in a week**

I've got all my supplies in now except the cabbage, I'm doing the veggie version. Three different shops I had to go to. M&S had no grapefruit and no cottage cheese so had to go to Tesco for those and then Holland & Barrett for the flax seeds, which were only available in a big bag.

"I like to start with an evolutionary perspective" — Jennie Brand-Miller. Today at the Food for Thought Conference, Jennie Brand-Miller argued that dependence on exogenous glucose played a critical role in our evolution. I and others disagree for several reasons. Let's look at the main arguments Brand-Miller put forward in support of exogenous glucose.

Butyrate is the preferred fuel of the colonocyte, therefore it is essential. If you haven't read my thoughts on the term "preferred", the point is that what a cell will consume first isn't necessarily the fuel that is the healthiest, though it certainly can be. Other reasons could be to get rid of it, or to access the metabolites.
