The Persian Gulf naming dispute is concerned with the name of the body of water known historically and internationally as the Persian Gulf (Persian: **فارس خلیج**), after the land of Persia (the traditional name of Iran). This name has become contested by some Arab countries since the 1960s in connection with the emergence of pan-Arabism and Arab nationalism, resulting in the invention ...

Persian Gulf naming dispute - Wikipedia

A geographic information system (GIS) is a system designed to capture, store, manipulate, analyze, manage, and present spatial or geographic data. GIS applications are tools that allow users to create interactive queries (user-created searches), analyze spatial information, edit data in maps, and present the results of all these operations.

the Fall Line zone (black line) separates the Coastal Plain of eastern Virginia (yellow) from the hard bedrock of the Piedmont Source: US Geological Survey Virginia Geologic Map Data. The edge of the Piedmont/Coastal Plain, where various rivers cross from hard bedrock to soft sediments, is marked by a line of rapids and waterfalls called the Fall Line.

Geology of the Fall Line - Geography of Virginia

Cancer has a major impact on society in the United States and across the world. Cancer statistics describe what happens in large groups of people and provide a picture in time of the burden of cancer on society. Statistics tell us things such as how many people are diagnosed with and die from cancer ...
