A novel is a long, fictional narrative which describes intimate human experiences. The novel in the modern era usually makes use of a literary prose style. The development of the prose novel at this time was encouraged by innovations in printing, and the introduction of cheap paper in the 15th century.. The present English (and Spanish) word for a long work of prose fiction derives from the ...

The Zohar (Hebrew: זֹהָר, lit."Splendor" or "Radiance") is the foundational work in the literature of Jewish mystical thought known as Kabbalah. It is a group of books including commentary on the mystical aspects of the Torah (the five books of Moses) and scriptural interpretations as well as material on mysticism, mythical cosmogony, and mystical psychology.

Introduction (Swami Sadananda Saraswati) When I received the set of manuscripts bearing the title Autobiography of Swami Sivananda, I jumped with joy because I expected, as I believe many would expect, that there was a chance to know many of the details of the Master's life which in spite of my fairly long stay with him (running into many years) I was unable to learn, either from him or from ...

The value of Yogananda's Autobiography is greatly enhanced by the fact that it is one of the few books in English about the wise men of India which has been written, not by a journalist or foreigner, but by one of their own race and training—in short, a book about yogis by a yogi. As an eyewitness recountal of the extraordinary lives and powers of modern Hindu saints, the book has ...

Objection 1. It would seem that moral virtues should not be called cardinal or principal virtues. For "the opposite members of a division are by nature simultaneous" (Categor. x), so that one is not principal rather than another. Now all the virtues are opposite members of the division of the genus "virtue." Therefore none of them should be called principal.

Introduction. We have no ancient record of the length of this book, as we had in the cases of John, Paul, and Peter (but I suspect it was the most prolix of all the five), and we have fewer relics of the original text than for those.

Introduction. The length of this book is given in the Stichometry of Nicephorus as 2,500 lines: the same number as for St. Matthew's Gospel. We have large portions of it in the original, and a Latin version (purged, it is important to note, of all traces of unorthodoxy) of some lost episodes, besides a few scattered fragments.
