Types of Capitalism. Capitalism is an economic system dominated by free markets and private ownership of wealth, assets and business. Within the broad church of capitalism, there are different forms - from unregulated 'Turbo-capitalism' to 'responsible or 'social welfare capitalism.' In practice, all 'capitalist economies have a degree of government intervention.

Types of Capitalism - Economics Help

Varieties of capitalism. Financialization, or financial capitalism, where financial parts of the economy (like the finance, insurance, or real estate sectors) predominate in an economy. Profit becomes more derived from ownership of an asset, credit, rents and earning interest, rather than actual productive processes.

History of capitalism - Wikipedia

“Varieties of Capitalism” (VoC) approaches the question of business and state relations from a different angle, which allows for a combination of empirical range and analytical sharpness. Diversity within capitalism follows from the institutional solutions to the perennial information and coordination problems that firms face. Since such institutional solutions come in a limited number of ...

The ‘Varieties of Capitalism’ Approach: An Overview The scope and variety of work associated with the varieties of capitalism school is so vast that without some delimitation, the discussion would lack coherence. Hence, this study concentrates on a small number of most recent and

A Critique of the “Varieties of Capitalism” Approach

What are the most fundamental differences among the political economies of the developed world? How do national institutional differences condition economic performance, public policy, and social well-being? Will they survive the pressures for convergence generated by globalization and technological change? These have long been central questions in comparative political economy.
